ELEVATOR PRODUCTS

More Than Half a Century of Excellence.

Quality. Service. Safety.

For more than 60 years, Monitor Elevator Products has successfully served the elevator industry and its customers in some of the most prestigious and demanding locations. That's because Monitor's goal has always been to become the first choice of its customers by providing the highest quality fixtures...no matter how large, small or challenging.

Whether it's a standard ADA upgrade or a custom one-of-a-kind product, Monitor provides the utmost in customer service, engineering and support.

From spec to install, you can count on the experts at Monitor to be on the job from start to finish.

As much as we take great pride in the products we design and manufacture, there is nothing more important at Monitor than knowing our components are built for safety. Safe to install...safe to maintain...safe to operate.

Thank you for your interest in our products, our people and our performance!

MONITOR SERIES

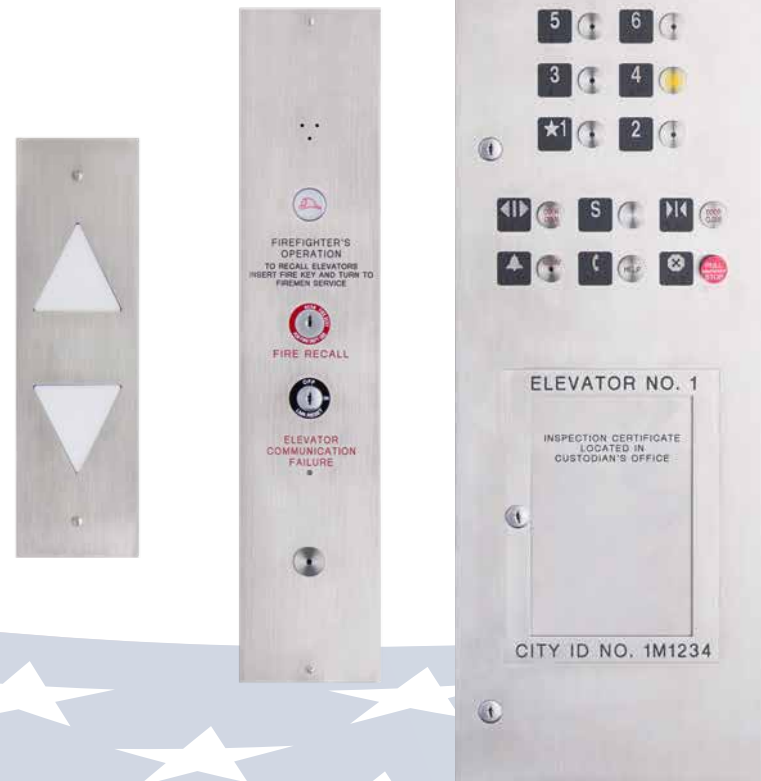

Quality Fit to Wear Our Name.

The Monitor Series is the primary design in our fixture line. Its traditional appearance incorporates durability and style.

Car Station Features as Shown:

- #4 brushed Stainless Steel
- 1¼" Square Braille
- TR1000 push button

See pages 15-16 for push button and metal options.

LANDMARK SERIES

A Mark of Excellence.

The Landmark Series offers the highest level of quality and the looks that you have come to expect from Monitor Fixtures.

Car Station Features as Shown:

- #4 brushed Stainless Steel
- Obround Braille
- TR1100 push button

See pages 15-16 for push button and metal options.

GUARDIAN SERIES

Always on Duty.

The Guardian Series is the perfect choice for hard use installations. If you need a tough, rugged car station, the Guardian Series is always on duty.

Car Station Features as Shown:

- #4 brushed Stainless Steel
- HPS1300 push button

See pages 15-16 for push button and metal options.

COSMOPOLITAN SERIES

Sophisticated Luxury.

The Cosmopolitan Series uses three 1/8" thick layers to achieve a classic Art Deco style with a luxurious appearance.

Car Station Features as Shown:

- ST/ST non-directional finish
- Round Braille
- TR1100 push button

See pages 15-16 for push button and metal options.

AMBASSADOR SERIES

Make a Bold Statement.

The Ambassador Series is designed with an etched geometric styling, complementing any decor while creating a unique look.

Car Station Features as Shown:

- #4 brushed Muntz with etched, dark oxidized or sand blasted borders
- Slim Line Braille
- TR1000 push button

See pages 15-16 for push button and metal options.

IMPERIAL SERIES

Refined Elegance.

The Imperial Series provides the look of old world styling while still maintaining a sophisticated charm.

Car Station Features as Shown:

- #4 brushed Muntz
- Round Braille
- TR1000 push button

See pages 15-16 for push button and metal options.

EXECUTIVE SERIES

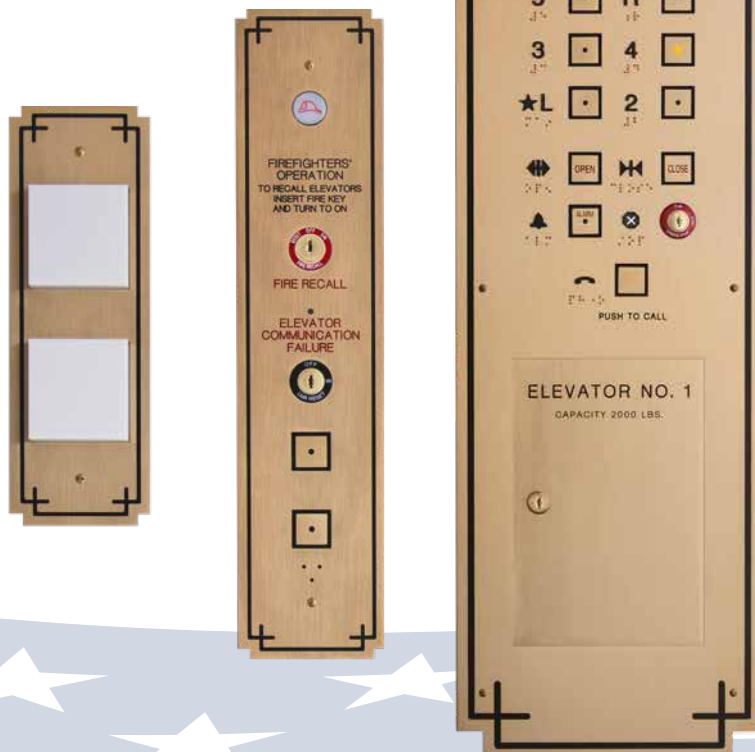

First Class Styling.

The Executive Series with its notched corners and engraved design adds a sleek contemporary appearance, with a touch of class, to any elevator.

Car Station Features as Shown:

- #4 brushed Muntz with engraved, filled borders
- Pin Braille
- TS1000 push button

See pages 15-16 for push button and metal options.

MATRIX SERIES

Modern Nostalgia.

The Matrix Series utilizes engraving to give the look and feel of the Art Deco style with a more modern flair. Its smooth curves complement any elevator.

Car Station Features as Shown:

- #4 brushed Stainless Steel with engraved, filled borders
- Crescent Braille
- TR1100 push button

See pages 15-16 for push button and metal options.

MONITOR SWING RETURNS

More Choices on a Proven Platform.

Monitor Swing Returns or OEM Retro Fit highlight the key features of traditional Monitor signature fixtures while adding more flexibility to fixture selections. Designed and built for standard to custom cab designs.

Car Station Features as Shown:

- #4 brushed Stainless Steel

See pages 15-16 for push button and metal options.

MONITOR

MONITOR

SUTTON PLACE SERIES

Step Back in Time.

The Sutton Place Series brings the Art Deco designs to life and combines the soul of history with modern art.

Car Station Features as Shown:

- #4 brushed Muntz with engraved, filled borders on a #8 mirror Muntz plate
- 1 1/4" Braille
- TR1500 push button

See pages 15-16 for push button and metal options.

PINNACLE SERIES

Peak Performance.

The Pinnacle Series incorporates three 1/8" thick layers stacked to give the appearance of old style elegance. The triangular top and bottom allow this series to be used in the narrowest of returns.

Car Station Features as Shown:

- #4 brushed Muntz
- Slim Line Braille
- TR1000 push button

See pages 15-16 for push button and metal options.

MIDNIGHT SERIES

Day and Night.

The Midnight Series combines sleek, modern design with blackened stainless steel to elevate Monitor Elevator fixtures with a distinctly luxurious appearance.

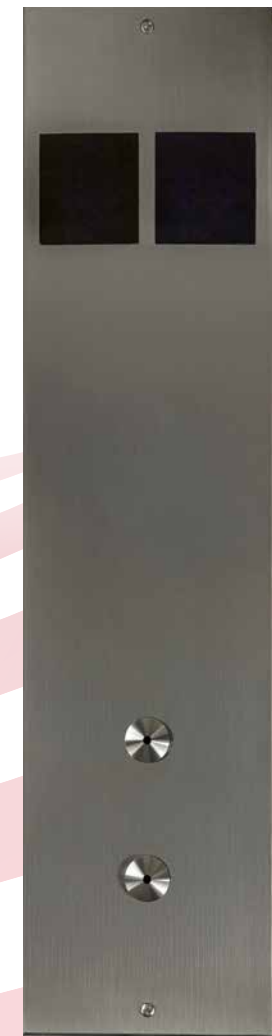

Car Station Features as Shown:

- Blackened
- 1 1/4" Braille
- TR1100 push button

See pages 15-16 for push button and metal options.

DESTINATION DISPATCH

Monitor Elevator Products partners with building architects to design and manufacture both standard and custom elevator components—including destination dispatch systems, car stations, hall stations, and illuminated or non-illuminated hall lanterns—to meet the unique design requirements of each project.

Passenger Safety, Second to None.

For more than six decades, Monitor lanterns and hall stations have served the elevator industry with the highest quality craftsmanship combined with elegant designs, reliable service and skillful engineering. As proud as we are of those long-term achievements, our first priority has and always will be to provide a level of passenger safety that is second to none. From standard to custom designs, surface or flush mount, ADA and ANSI compliant, there's a Monitor lantern or hall station to meet or exceed your exacting requirements.
