**Important Information About Your Oxidized/Blackened Sample**

- 1) Please note that there are several factors that can and will affect each individual face plate being chemically oxidized to obtain either a light, medium or dark oxidized appearance. The same goes for blackened appearance.
- 2) Due to the chemical application process, varying alloy percentages between different batches of bronze metal and pre-oxidation tarnishing, **NO TWO COVERPLATES WILL BE EXACTLY THE SAME IN APPEARANCE.**
- 3) All faceplates will have a similar appearance with some variances in darkness, graining and coverage. These variances give each faceplate it's own unique appearance.
- 4) This sample is being provided to give a general impression of the appearance of the finished product and should not be construed to be a control sample.
